

Welcome!

Welcome to JobbingMusician.com, the site for jobbing musicians around the world.

At this site, you'll be able to connect with other jobbing musicians, post ads to buy or sell equipment, find gigs and more. Of course, it all depends on you!

My name is Roland Klassen, and was a gigging musician on the jobbing circuit in Toronto for 25 years. I stopped playing in 1999, but I've maintained an active interest in the music business and would like nothing better than to help create an international community, where jobbing musicians can get together.

The first thing to do is click on the "Join the Band!" tab at the top, and join our social network by filling out your profile. Then, invite your friends and let's get going!

Yours in music.

Roland
